The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Draft Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

In this section, unless the context requires otherwise, any reference to “we”, “us” “our” or “ CGFL” refers to Credent Global Finance Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding.

Internal Risk Factors

- 1. We operate in a highly competitive industry and our inability to compete effectively may adversely affect our business.**

We operate in a highly competitive industry. Given the diversity of our businesses, and the products and services offered by us, we face competition from the full spectrum of public sector banks, private sector banks (including foreign banks), financial institutions, captive finance affiliates of players in various industries, small finance banks and other NBFCs. Many of our competitors may have greater resources than we do, may be larger in terms of business volume and may have significantly lower cost of funds compared to us. They may also have greater geographical reach, long-standing partnerships and may offer their customers other forms of financing that we may not be able to provide. Competition in Industry Overview depends on, amongst others, the ongoing evolution of government and regulatory policies, the entry of new participants and the extent to which there is consolidation among banks and

financial institutions in India. In relation to the advisory and investment banking services we offer, we also face competition from banks, boutique investment bankers and consulting organizations. Potentially, these service providers could compete with us for business as well as procurement of funds at competitive rates. We cannot assure you that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in our increasingly competitive industry and our inability to compete effectively may adversely affect our business.

2. *Our business will require substantial funds, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.*

Our liquidity and profitability are, in large part, dependent upon our timely access to, and costs associated with raising capital including both debt and equity. Our business depends and will continue to depend on our ability to access diversified low-cost funding sources. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks. Further, under Indian Law, foreign investors are subject to investment restrictions that may limit our ability to attract foreign investors or capital from overseas investors. Pursuing our growth strategy and introducing new product offerings to our customers will have an impact on our long-term capital requirements. With the growth of our business, we may be increasingly reliant on funding from debt capital markets. The market for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors. If we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors, including the regulatory environment and policy initiatives in India, lack of liquidity in the market, developments in the international markets affecting the Indian economy, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. If we are unable to obtain adequate financing or financing on terms satisfactory to us and in a timely manner, our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

3. *Underperformance of investment products in respect of which we provide asset management services could lead to a loss of investors, reduction in AUM and adversely affect our results of operations and reputation.*

The investment products in respect of which we provide asset management services may not outperform either their relevant benchmarks, or similar investment products provided by our competitors. Many other investments, including in particular investments in equity, are subject to potential capital losses. Other than our investment strategies, the performance of such investment products will depend on a number of factors, the majority of which are outside our control and include market, economic and other conditions. Further, certain of our investment management contracts contain restrictions relating to our investment policies, for example limiting exposure concentrations in respect of certain asset classes, issuers, or industries. Such restrictions may prevent us from implementing what may be the best investment strategies, which could restrict the performance of our investments.

Such underperformance may have an adverse effect on our business, including:

- existing investors may withdraw funds in favor of better performing products offered by our competitors, which would reduce the AUM of the schemes managed by us, resulting in reduced revenue from management fees;
- our ability to attract funds from new investors or incremental funds from existing investors may diminish; and
- negative absolute investment performance will directly reduce the value of AUM of the schemes managed by us, resulting in reduced revenue from management fees.

In addition, we may periodically review our investment management fees, or limit total expenses, on certain products or services for particular time periods to improve portfolio performance, manage portfolio expenses, and to help retain or increase managed assets, or for other reasons. If our revenue declines without a commensurate reduction in our expenses, our profit after tax will decline.

4. *An increase in the level of our NPAs or our provisions may adversely affect our business, financial condition, results of operations and cash flows.*

Our management of credit risk involves having appropriate credit policies, underwriting standards, approval processes, loan portfolio monitoring, collection and remedial management, provisioning policies and an overall architecture for managing credit risk. However, even if our credit monitoring and risk management policies and procedures are adequate and appropriately implemented, we may not be able to anticipate future economic or financial developments or downturns, which could lead to an increase in our NPAs. If our NPAs increase or the credit quality of our borrowers deteriorates, it could have an adverse effect on our business, financial condition, results of operations and cash flows.

5. *Any disruption in our sources of funding or increase in costs of funding could adversely affect our liquidity and financial condition*

The liquidity and profitability of our business majorly depend on our timely access to, and the costs associated with, raising funds. Our business thus depends and will continue to depend on our ability to access a variety of funding sources. Further, our ability to

compete effectively will depend, in part, on our ability to maintain or increase our margins. Our margins are affected in part by our ability to continue to secure low-cost funding at rates lower than the interest rates at which we lend to our customers. Our ability to raise funds on acceptable terms and at competitive rates depends on various factors including our current and future results of operations and financial condition, global and local macroeconomic conditions and the effect of events such as a pandemic, our risk management policies, the shareholding of Promoters in our Company, our credit ratings, our brand equity, the regulatory environment and policy initiatives in India and developments in the international markets affecting the Indian economy. If we are unable to access funds at an effective cost that is comparable to or lower than that of our competitors, our net interest margins, income, and market share may be adversely affected.

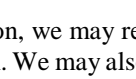

Certain regulatory developments including the restrictions imposed on NBFCs by the RBI through a Master Circular – Bank Finance to Non- Banking Financial Companies dated July 1, 2015 (the “Master Circular”) may restrict our ability to obtain bank financing for specific activities. Pursuant to the Master Circular, the RBI has imposed certain restrictions on banks providing financing to NBFCs. Under this Master Circular, certain activities by NBFCs are ineligible for financing by banks, including certain types of discounting and rediscounting of bills, current and long term investments in shares, debentures, loans and advances by NBFCs to their subsidiaries and group companies, lending by NBFCs to individuals for subscribing to public offerings and purchasing shares from the secondary market, unsecured loans, inter-corporate deposits provided by NBFCs, and subscription to shares or debentures by NBFCs. In addition, the Master Circular prohibits:

- banks from granting bridge loans of any nature, provide interim finance against capital or debenture issues or in the form of loans of a temporary nature pending the raising of long-term funds from the market by way of capital, deposits, or other means to any category of NBFCs;
- banks from accepting shares and debentures as collateral for secured loans granted to NBFCs; and
- banks from executing guarantees covering inter-Company deposits or loans that guarantee refund of deposits or loans accepted by NBFCs. The Master Circular also requires that guarantees not be issued by banks for the purpose of indirectly enabling the placement of deposits with NBFCs.

Changes in economic, regulatory and financial conditions or any lack of liquidity in the market could adversely affect our ability to access funds at competitive rates, or at all, which could adversely affect our liquidity and financial condition.

6. Any failure to protect or enforce our rights to own or use trademarks and brand names and identities could have an adverse effect on our business and competitive position.

As on the date of this Draft Letter of Offer, our Material Subsidiary, CAMS has made certain trademark applications to Registrar of Trademarks for registration of its logo for which application is presently pending. Hence, we do not enjoy the statutory protection accorded to a registered trademark. Details of such applications are as below:

Application Number	Trademark	Class	Date of Application	Status
3610882		36	August 11, 2017	Opposed
5605418		16	September 12, 2022	Objected
5605420		36	September 12, 2022	Objected
5605422		16	September 12, 2022	Objected
5605424		16	September 12, 2022	Objected

Since we have not obtained registration, we may remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our logo which may adversely affect our reputation and business and could require us to incur additional costs. Any failure to register our logo or renew registration of our registered trademarks may affect our right to use them in future. Our efforts to protect our intellectual property may not be adequate and any third party claims on any of our unprotected brands or misuse may lead to erosion of our business value and our reputation, which could adversely affect our operations. Third parties may also infringe or copy our registered trademarks. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our trademarks. Further, if we do not maintain our brand identity, which is an important factor that differentiates us from our competitors, we may not be able to maintain our competitive edge. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand is subject to risks, including general litigation risks. Furthermore, we cannot assure you that our brand will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source. Any damage to our brand identity, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position.

7. We do not own certain premises used by us. Disruption of our rights as licensee/ lessee or termination of the agreements with our licensors/ lessors would adversely impact our business operations and, consequently, our business.

As on the date of this Draft Letter of Offer, our Registered Office, Registered Offices of our Subsidiaries have been taken on lease by our Company and/or Our Subsidiaries from third parties. For details, please refer to the chapter titled “Our Business - Leasehold Properties” on page 63 of this Draft Letter of Offer.

Also, we do not have any formal arrangement for use of our Marketing Office with Credent Property Advisory Limited, which is our Promoter group entity and is the original lessee for our Marketing Office.

There is no assurance that our Company and/or Our Subsidiaries will be able to renew the lease agreements or deeds entered into with third parties in a timely manner or at all. Further, there is no assurance that we will not face any disruption of our rights as a lessee/ licensee and that such leave and license and lease agreements will not be terminated prematurely by the licensor/lessor. Any such non-renewal or early termination or any disruption of our rights as lessee / licensee might adversely affect our business operations.

8. Any regulatory actions and penalties for any past or future non-compliance may adversely affect our business or reputation, or both.

As a Listed Company, we have to comply with numerous regulatory filings, maintenance of record etc. under the Companies Act, 2013, Securities Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015 (“Listing Regulation”), Securities Exchange Board of India (Substantial Acquisition of Shares and Takeover) Regulation, 2011 and any other laws and regulation as applicable.

While we have been generally compliant, however there has been one instance of non-filing to Stock Exchange i.e., BSE Limited due to some misinterpretation of law by our Statutory Auditor resulting in a penalty of Rs. 1.25 Lakhs. For further details, please see the chapter titled “Outstanding Litigation and Material Developments” beginning on page 150 of this Draft Letter of Offer. Any non-compliance of the applicable laws they may impose the penalty on the Company. Such penalty may impact the results of operations and financial condition of the Company.

Also, SEBI through its letter dated June 8, 2021 (“Warning Letter”) had issued a warning to our Promoter Directors, Mr. Aditya Vikram Kanoria and Mr. Mandeep Singh in the matter of acquisition of our Company through an open offer.

Our Promoter Directors, Mr. Aditya Vikram Kanoria and Mr. Mandeep Singh, while acquisition of our Company through an open offer were required to deposit 25% of the consideration payable under open offer in an escrow account, not later than two working days prior to the date of the detailed public statement of the open offer for acquiring shares. However, an amount of Rs. 10,00,000/- was deposited with delay of two days. Therefore, SEBI decided to issue a warning to Promoter Directors, Mr. Aditya Vikram Kanoria and Mr. Mandeep Singh with an advice to be careful in future and to also place the Warning Letter before the board of directors of our Company.

9. Our Company has taken certain unsecured loans, which may be recalled at any time.

As on March 31, 2023, our Company has outstanding unsecured loans aggregating to ₹ 3,745.08 Lakhs, may be recalled by them at any time. In the event, any of such lenders (which includes our Promoters, Director or other related parties) seek a repayment of any these loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, it may adversely affect our ability to grow or support our business and to respond to business challenges could be limited and our business prospects, financial condition and results of operations would be materially and adversely affected.

10. Any inability on our part to effectively utilize the Issue Proceeds could adversely affect our financial results. The objects of the Issue are based on the internal estimates of our management and have not been appraised by any bank or financial institution.

The funds raised under this Issue will be to augment our capital. The objects of the Issue are based on management estimates and have not been up appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financial results. Utilization of Issue proceeds would be disclosed to our Company's shareholders in the manner required under the SEBI LODR Regulations. For further details, please see to the section titled "Objects of the Issue" on page no. 44 of this Draft Letter of Offer.

11. We, as an NBFC have to adhere to several regulatory norms prescribed by RBI from time to time. Any non-compliance with such norms or any adverse change in the norms could negatively affect our Company's operations, business, financial condition and the trading price of Equity Shares.

As a consequence of being regulated as an NBFC we will have to adhere to certain individual and borrower group exposure limits and periodic reporting and Compliances as specified under the RBI regulations and are subject to periodic RBI inspection and supervision. We have in the past, made RBI Submissions and reporting with delays. In the event that we are unable to comply with the regulatory requirements within the specified time limit, or at all, we may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC as the case may be. Any such action may adversely affect our business, prospects, result of operations, financial condition and the trading price of our Equity Shares.

Our Company is regulated by the RBI as a Non-Deposit Taking (ND) and Non-Systematically Important (NSI) Non-Banking Financial Company – Investment and Credit Company "NBFC-ICC" and comes under Base Layer (BL) of the RBI's Scale Based Regulatory Framework. Hence, majority of the regulatory filings and exposure norms are not yet applicable to our company. However, the same may become applicable once we cross a certain benchmark limit as specified by RBI from time to time after which, we would be a Systematically Important (SI) and/or Middle Layer (ML) or Upper Layer (UL) NBFC-ICC and hence would have to adhere to individual and group borrower exposure limits and periodic reporting and other such compliances and procedures.

Being a Non-Deposit Taking, Non-Systematically Important NBFC Company, means that RBI norms for us are relatively lesser stringent, however, there can be no assurance that we would have complied with all requirements as and when applicable.

In the event that we are unable to comply with the regulatory requirements within the specified time limit, or at all, we may be subject to regulatory actions by the RBI including the levy of fines or penalties and/or the cancellation of registration as an NBFC. We cannot assure you that we may not breach the exposure norms or other regulatory norms in the future. Any levy of fines or penalties or the cancellation of our registration as an NBFC by the RBI by the Government of India, due to the breach of exposure or other applicable norms, may adversely affect our business, prospects, and result of operations, financial condition and the trading price of our Equity Shares.

Further, the RBI's regulation pertaining to NBFC may change or become more rigorous in the future which may require our Company to restructure its activities, incur additional costs or could otherwise adversely affect its business, financial performance and cash flows. There can be no assurance that the RBI and/or the Government will not implement further regulations or policies, including legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that may have an adverse impact on NBFCs.

Compliance with many of the regulations applicable to our operations in India, including any restrictions on investments and other activities currently being carried out by us, involves a number of risks, particularly in markets where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and our business could be adversely affected. We are also subject to changes in laws, regulations and accounting principles and practices. There can be no assurance that the laws governing the financial services sector will not change in the future

or that such changes or the interpretation or enforcement of existing and future laws and rules by governmental and regulatory authorities will not adversely affect our business and future financial performance.

12. As an NBFC, we face the risk of default and non-payment by borrowers and other counterparties. Any such defaults and non-payments would result in write-offs and/or provisions in our financial statements which may materially and adversely affect our profitability and asset quality.

Any lending or investment activity is exposed to credit risk arising from the risk of default and non-payment by borrowers and other counterparties. Our loan book stood at Rs. 3,176.36 Lakhs, Rs. 683.42 Lakhs and Rs. 427.37 Lakhs for the FY 2023, 2022 and 2021 respectively consisting entirely of Unsecured Loans. Many of our loans in the portfolio are loans granted to Small Business Firms (Proprietors / Partnerships) and Individuals (Personal Loans). Further, in relation to the unsecured loans, our ability to realise the amounts due to us for such loans would be restricted to initiating legal proceedings for recovery, as we will not have the benefit of enforcing any security interest related to such loans. There can be no guarantee as to the time that would be taken for the final disposal of such legal proceedings and/or our ability to obtain favourable decisions in connection therewith. Our inability to recover the amounts due from customers in connection with such loans in a timely manner or at all and/or to comply with applicable statutory/regulatory requirements in connection with such loans could adversely affect our operations and profitability.

13. Our success depends largely on our senior management and our ability to attract and retain our key personnel. Any significant changes in the key managerial personnel, may affect the performance of our Company.

Our success depends on the continued services and performance of the members of the senior management team and other key employees. Competition for senior and experienced personnel in the industry is intense at present. The loss of the services of senior management or other key personnel could seriously impair our ability to continue to manage and expand our business, which may adversely affect our financial condition.

14. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.

Our Company has experienced negative net cash flow in operating and investing activities in the recent past, the details of which are provided below:

Particulars	Audited		
	March 31, 2023	March 31, 2022	March 31, 2021
Net Cash Flow from / (used in) Operating Activities	(2,362.83)	(585.69)	(42.77)
Net Cash Flow from / (used in) Investment Activities	(1,740.76)	18.66	42.70
Net Cash Flow from / (used in) Financing Activities	4,419.05	569.19	-

(₹ in Lakhs)

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

15. Our Company is subject to periodic inspections by the RBI. Non-compliance with observations made during any such inspections could result in penalties and fines on our Company and/or our Subsidiary and could adversely affect the reputation of the business of our Company

Our Company is subject to periodic inspections by the RBI of our Company's books of accounts and other records for the purpose of verifying the correctness or completeness of any statement, information or particulars furnished to the RBI or for obtaining any information, which our Company have failed to furnish when called upon to do so. The RBI conducts an annual inspection of our Company's books of accounts and other records relating to our financial position every year under Section 45N of the RBI Act. RBI inspections are a regular exercise and are carried out periodically by RBI for banks, financial institutions and NBFCs. While our Company has responded to the RBI observations, and has taken steps or is in the process of taking steps to rectify the identified deficiencies, if our Company fails to comply with the RBI's observations or all of the terms and conditions stipulated in the observations, or fails to seek waivers or extensions of time for complying with these terms and conditions, the RBI may take adverse actions against our Company, such as revoking its registration/ licence or placing stringent restrictions on our Company's operations in case of any major non-compliance with RBI guidelines, circulars or notifications, as the case may be. Any major failure to meet the RBI's directions could materially and adversely affect our Company's pending applications or requests with the RBI and our Company's ability to obtain the regulatory permits and approvals required to expand our business, or result in the interruption of all or some of our Company's operations, which could have a material adverse effect on our Company's business, financial condition and results of operations.

16. The deployment of funds is entirely at our discretion and as per the details mentioned in the section titled 'Objects of the Issue'

As the Issue size is not more than ₹4,900 Lakhs, under Regulation 82 of the SEBI (ICDR) Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilisation of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilisation of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue.

17. *We may have challenges extending our business into new regions and markets both inside and outside of India.*

We continue to investigate potential to expand our business into new markets in India as part of our growth strategy. In these new areas, factors such as competition, consumer requirements, regulatory regimes, business practices, and customs may differ from those in our present markets, and our prior market experience may not be applicable to these new markets.

18. *Internal or external fraud, dishonesty, or misconduct by our personnel could have a negative impact on our reputation and financial results.*

Misconduct by our employees could bind us to transactions that exceed authorised limits or present unacceptable risks, and our employees could conceal unauthorised or unlawful activities from us. Employee misconduct could also involve front running in securities markets or the improper use or disclosure of confidential information or non-compliance with insider trading rules, which could result in regulatory sanctions and serious reputational or financial harm. It is not always possible to deter fraud or misconduct by employees, and the precautions we have taken and the systems we have put in place to prevent and deter such activities may not be effective in all cases. Any instances of fraud or misconduct could adversely affect our reputation, business, results of operations and financial condition.

19. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

Company has declared an interim dividend of 5%, i.e., Rs. 0.5/- per Equity Share with Face Value of Rs. 10/- each to Non-Promoter Equity Shareholders of the Company for the Financial Year 2022-23 amounting to Rs. 18.89 Lakhs

Further, the Promoters of the Company, i.e., Mr. Aditya Vikram Kanoria and Mr. Mandeep Singh have volunteered to waive off dividend on their holdings, i.e., on 31,99,549 Equity Shares for the Financial Year 2022-2023.

our ability to pay dividends in the future will depend on number of factors, including our profit after tax for the fiscal year, utilization of the profit after tax towards reserves, our future expansion plans and capital requirements, our financial condition, our cash flows and applicable taxes, including dividend distribution tax payable by our Company. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and subsequent approval of shareholders and will depend on factors that our Board and shareholders deem relevant. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Further, dividends distributed by us will attract 31 dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. We cannot assure you that we will be able to pay dividends in the near or medium term or future, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

20. *We require number of approvals, NOCs, licenses in ordinary course of our Business.*

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business. Any failure to renew the approvals that will expire, or to failure/delay to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

21. *Your holdings may be diluted by additional issuances of equity by us, which may adversely affect the market price of our Equity Shares.*

Any future issuance of our Equity Shares may dilute the holdings of investors in our Equity Shares, which could adversely affect the market price of our Equity Shares. Additionally, sales of a large number of our Equity Shares by our principal shareholder could adversely affect the market price of our Equity Shares. The perception that any such sale may occur could also adversely affect the market price of our Equity Shares.

22. *We are subject to cyber security risks and security breaches and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.*

A number of other companies have disclosed cyber-attacks and security breaches, some of which have involved intentional attacks. Attacks may be targeted at us, our customers, or both. Although we devote significant resources to maintain and regularly upgrade our systems and processes that are designed to protect the security of our computer systems, software, networks and other technology assets and the confidentiality, integrity and availability of information belonging to us and our customers, our security measures may not provide absolute security. Despite our efforts to ensure the integrity of our systems, it is possible that we may not be able to anticipate or to implement effective preventive measures against all security breaches of these types, especially because the techniques used change frequently or are not recognized until launched, and because cyber-attacks can originate from a wide variety of sources, including third parties outside the Company such as persons who are involved with organized crime or associated with external service providers or who may be linked to terrorist organizations or hostile foreign governments. A successful penetration or circumvention of the security of our systems could cause serious negative consequences, including significant disruption of our operations, misappropriation of our confidential information or that of our customers, or damage to our computers or systems or those of our customers and counterparties, and could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, significant litigation exposure, and affect to our reputation, all of which could have a material adverse effect on us.

Our servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach of our systems or by persons with whom we have commercial relationships that result in the unauthorized release of customers' or businesses' personal information, could damage our reputation and expose us to a risk of loss or litigation and possible liability.

23. *Security breaches of customers' confidential information that we store may harm our reputation and expose us to liability.*

We store customers' bank information, credit information and other sensitive data. Any accidental or wilful security breaches or other unauthorized access could cause the theft and criminal use of this data. Security breaches or unauthorized access to confidential information could also expose us to liability related to the loss of the information, time-consuming and expensive litigation and negative publicity. If security measures are breached because of third party action, employee error, malfeasance or otherwise, or if design flaws in our software are exposed and exploited, and, as a result, a third party obtains unauthorized access to customer data, our relationships with customers will be severely damaged, and we could incur significant liability. Further, we engage with certain third-party service providers, and although our contracts with them restrict the usage of client data and impose protective precautions, there can be no assurance that they will abide by such contractual terms or that the contracts will be found to be in compliance with data protection laws.

24. *We rely on the accuracy and completeness of information concerning borrowers and counterparties for credit evaluation and risk management. Any misrepresentation, inaccuracies, or omissions in such material could have a negative impact on our business and financial results.*

We rely on information provided to us by or on behalf of borrowers when evaluating whether to provide credit or engage in other transactions with clients (including in relation to their financial transactions and past credit history). We may also depend on borrowers' assurances about the accuracy and completeness of the information. For ascertaining the creditworthiness and encumbrances on collateral, we may depend on the respective registrars and sub-registrars of assurances, credit information companies or credit bureaus and on independent valuers in relation to the value of the collateral, and our reliance on any misleading information given may affect our judgment of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, prospects, results of operations and financial condition. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation on the part of our customers or employees. In addition, customers may misrepresent information in the loan application forms including in relation to the intended end use of the loans and may apply the loans disbursed for end uses different from those mentioned in the loan application form. Our risk management measures may not be adequate to prevent or deter such activities in all cases, which may adversely affect our business prospects, financial condition and results of operations.

There may be relatively less financial and credit information available on retail and rural individual borrowers, micro, small and medium enterprises and in relation to the possibility of double-financing obtained by any such clients, than may have been available in a more developed economy, and the availability of such financial and credit information in India may be considered to suffer from an absence of competitive pressure at present.

25. *Our inability to completely detect money laundering and other illicit actions or detect the same in a timely manner or at all may expose us to extra responsibility and affect our business and reputation.*

In India, we must follow all applicable anti-money laundering ("AML") and anti-terrorism laws and regulations. We bear the risk of failing to follow the statutory know your customer ("KYC") requirements, as well as fraud and money laundering by dishonest customers, in the ordinary course of our business. Despite having internal rules, processes, and controls in place to prevent and identify any AML activity and maintain KYC compliance, we cannot guarantee that we will be able to entirely manage instances of any possible or attempted violation. Any failure or ineffectiveness of our control system to detect such activities completely and

immediately may subject us to regulatory action, including fines and penalties, and have a negative impact on our business and reputation.

26. *As we expand our lending business, we may encounter asset-liability mismatches, which might negatively impact our cash flows, financial condition, and results of operations.*

As we expand our lending operations, we may encounter liquidity concerns due to mismatches in the maturity of our assets and obligations. If we are unable to obtain additional borrowings or renew our existing credit facilities in a timely and cost-effective manner, or at all, for matching tenures of our loan portfolio, it may result in mismatches between our assets and liabilities, which could harm our cash flows, financial condition, and results of operations.

27. *Failure to stay up to date with technological changes, as well as the uses and regulation of the internet, might be detrimental to our Company.*

The industry of delivering finance products and services via a mobile app or the internet is dynamic and fresh. We must keep up with changing technical breakthroughs, customer and small company usage habits, internet security threats, system failure or inadequacy hazards, and governmental regulation and taxation, all of which could have a negative influence on our Company

If we are unable to adequately react to such developments, decreased demand for loans as a result of higher savings or income could result in a loss of revenues or a fall in profitability. The demand for loan products in the markets we serve could fall as a result of a variety of factors, including regulatory restrictions that limit customer access to specific products, the availability of competing or alternative products, or changes in customers' financial circumstances, such as increases in income or savings. A shift in focus from borrowing to saving would also lessen demand. Our revenues could be severely reduced if we fail to adjust to a significant change in our clients' desire for, or access to, our financing products. Customers may refuse or reject products whose changes make them less appealing or less available, even if we make adjustments or launch new products to meet customer demand.

28. *We have not commissioned an industry report for the disclosures made in the section titled 'Industry Overview' and made disclosures based on the data available on the internet and such third-party data has not been independently verified by us.*

We have neither commissioned an industry report, nor sought consent from the quoted website source for the disclosures which need to be made in the section titled 'Industry Overview' beginning on page 51 of this Draft Letter of Offer. We have made disclosures in the said section based on the relevant industry related data available online for which relevant consents have not been obtained. We have not independently verified such third-party data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Letter of Offer. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Letter of Offer in this context .

29. *The outbreak of COVID-19, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease could adversely affect our business, financial condition and results of operations. The outbreak of COVID-19 has resulted in authorities implementing several containment measures such as travel bans and restrictions, quarantines and shutdowns. These measures may have an impact on the workforce and our operations and the operations of our customers. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may further cause significant economic disruption across India. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian economy in general.

The COVID-19 outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown. The spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees and customers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak. The extent to which COVID-19 further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken to contain the coronavirus or treat its impact, among others. The degree to which COVID-19 may impact our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or the ability to treat its impact, and how quickly and to what extent

normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, loss of life, injuries and impact the wellbeing of our people.

30. Certain data mentioned in this Draft Letter of Offer has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

EXTERNAL RISK FACTORS

31. Other financial institutions or the Indian financial sector as a whole may have difficulties, which could hurt our operations.

We are exposed to risks as a result of our involvement in the Indian financial system. Financial troubles and other issues confronting Indian financial institutions may have an impact on this sector. Several Indian financial institutions have had problems in recent years, and certain banks have also had major financial and liquidity problems. Any significant problem or volatility in the Indian financial system could lead to a negative market perception.

32. Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and IFRS, which investors may be more familiar with and consider material to their assessment of our financial condition.

Our audited summary statements of assets and liabilities as at March 31, 2023 and audited summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity for the Financial Year 2023 have been prepared in accordance with the Ind AS, read with the Ind AS Rules and restated in accordance with the SEBI ICDR Regulations, the SEBI Circular and the Prospectus Guidance Note.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Draft Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Audited Financial Information included in this Draft Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Letter of Offer should accordingly be limited.

33. Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

34. A slowdown in economic growth in India could cause our business to suffer.

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

1. any increase in Indian interest rates or inflation;
2. any scarcity of credit or other financing in India;
3. prevailing income conditions among Indian consumers and Indian corporations;
4. changes in India's tax, trade, fiscal or monetary policies;
5. political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
6. prevailing regional or global economic conditions; and
7. other significant regulatory or economic developments in or affecting India

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

35. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

36. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

37. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

38. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

39. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions including wars amongst nations like the current Russia Ukraine conflict could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

ISSUE SPECIFIC RISKS

40. *Our Company will not distribute the Draft Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Draft Letter of Offer, Rights Entitlement Letter and Application Form (the "**Offering Materials**") to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e- mail. Presently, there is a lack of clarity under the Companies Act and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

41. *SEBI has by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021 and October 01, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.*

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021 and October 01, 2021 and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see "*Terms of the Issue*" on page 162 of this Draft Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity

Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

42. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

43. *Any future issuance of the Equity Shares, or convertible securities by our Company may dilute your future shareholding and sales of the Equity Shares by our Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, or convertible securities by our Company, including through exercise of employee stock options or restricted stock units may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Further, any future sales of the Equity Shares by the Promoters and members of our Promoter Group, or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

44. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. However, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if STT was paid on the sale transaction and, additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of equity shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, has now levied taxes on long-term capital gains arising from sale of equity shares. However, where specified conditions are met, such long-term capital gains are only taxed to the extent they exceed Rs. 100,000.00 and unrealized capital gains earned up to January 31, 2018, continue to be exempt. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the equity shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity Shares.

45. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

46. *Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period.

The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer chapter titled “Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form” on page 167 of this Draft of Letter of Offer.

47. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant’s decision to invest in the Issue Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

48. Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor’s demat account or that trading in the Equity Shares will commence in a timely manner.

49. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

50. *Holder of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, 2013, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

51. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the

proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

52. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

53. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

Indian Economy

The Indian economy showed a strong sign of recovery after numerous headwinds in recent past. During the fiscal Indian economy on account of successful mass vaccination was able to withstand the new omicron variant of covid-19. The Union Budget 2022-23, boosted the sentiments of the economy with its focus on growth and creating jobs by implementing sector focused PLI schemes. The supply chain disruptions are expected to pick-up going forward. The Indian GDP is expected to witness a growth of 9.1% (Moody's Investors Service) in 2022 and 5.4% in 2023. The Russia-Ukraine invasion, has impacted the inflation in the economy. The CPI inflation touched 6.1% in February 2022; largely on account of higher crude prices and power costs. The capital expenditure-led Budget, Reserve Bank of India's accommodative policy and diminutive damage on the Indian economy from the omicron wave have set the stage for GDP pickup.

Introduction to the Financial Services Industry

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities. The banking regulator has allowed new entities such as payment banks to be created recently, thereby adding to the type of entities operating in the sector. However, the financial sector in India is predominantly a banking sector with commercial banks accounting for more than 64% of the total assets held by the financial system.

The Government of India has introduced several reforms to liberalise, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for MSMEs, issuing guidelines to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by Government and private sector, India is undoubtedly one of the world's most vibrant capital markets.

Evolution

Over the years, NBFCs have evolved given the extensive changes in the regulatory framework for NBFCs in India which have moved from simplified regulations to stringent and extensive regulations as well as towards rationalisation per the currently revised NBFC regulatory framework. Given these high levels of regulation, NBFCs have also emerged as preferred options to meet credit needs since the low cost of operations has provided these NBFCs an edge over banks.

Financial Access and Supportive Government Schemes

Additionally, NBFCs have gradually become important mechanisms to fuel growth and entrepreneurship due to the launch of government-backed schemes including Pradhan Mantri Jan-Dhan Yojana which has contributed to a significant increase in the number of bank accounts.

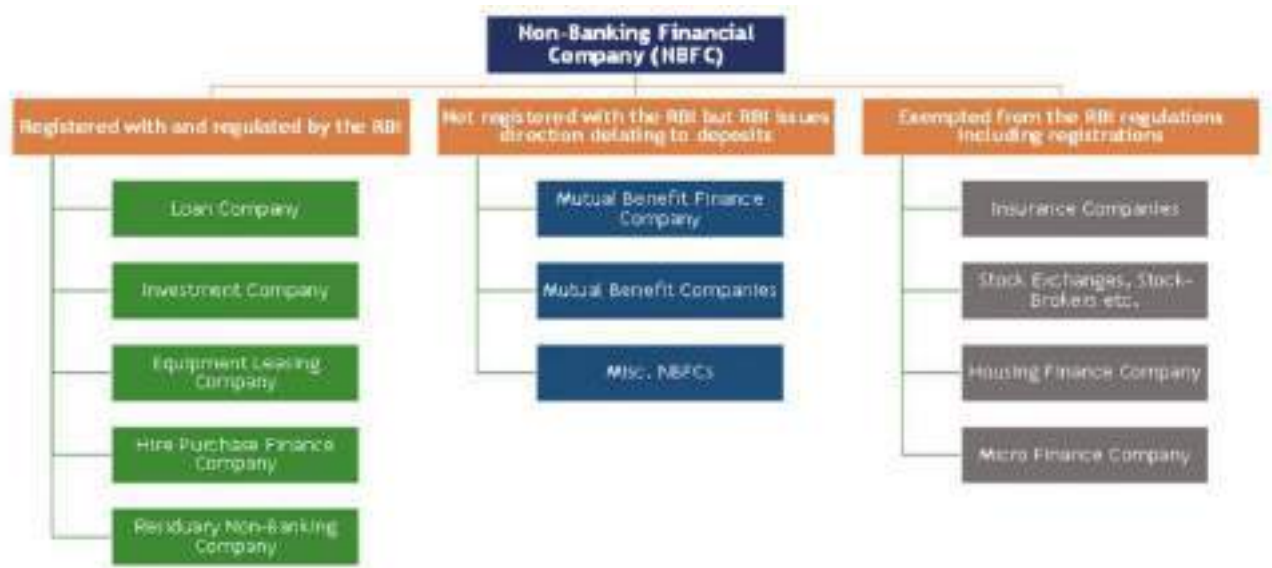

These NBFCs have also been key in being able to mitigate and manage the spread of risks during times of financial duress and have increasingly become recognized as complementary services to banks.

NBFCs have become integral for all business services, including loans and credit facilities, retirement planning, money markets, underwriting and merger activities. As such these companies play an important role in providing credit to the unorganized sector and for small borrowers at local level. Additionally, hire purchase finance is also the largest activity of NBFCs and the rapid growth of NBFCs has gradually blurred the lines between banks and NBFCs although commercial banks have retained importance. These NBFCs facilitate long term investment and financing, which is challenging for banking sector, and the growth of NBFCs widens range of products available for individuals/institutions with resources to invest.

Opportunities for NBFCs

Ongoing stress in public sector banks (PSUs) because of increasing bad debt, lending in rural areas deterioration has provided NBFCs with the opportunity to increase presence. The success of these NBFCs vs. PSUs can be attributed to product lines, lower cost, wider and effective reach, strong risk management capabilities to check and control bad debts, and a better understanding of customer segments versus banks. NBFCs have witnessed success in the passenger and commercial vehicle finance segments as well as growing AUM in personal loan and housing finance sector. Additionally, improving macro-economic conditions, higher credit penetrations, consumption themes and disruptive digital trends have influenced NBFC credit growth. Stress in public sector units (PSUs), underlying credit demand, digital disruption for MSMEs and SMEs as well as increased consumption and distribution access and sectors where traditional banks do not lend are major reasons for the switch from traditional banks to NBFCs.

Present NBFC Classifications and Industry Structure

Source: RBI; Pradhan Mantri Jan Dhan Yojana; Indian Banks' Association - Indian Banking Sector 2020

Most recently, as of October 01, 2022, there were 9,506 NBFCs registered with the RBI categorized as Asset Finance Companies, Loan Companies, Infrastructure Finance Companies (IFCs), Systematically Important Core Investment Company (NBFC – CIC – ND – SI), Infrastructure Debt Fund (NBFC – IDF) and Micro Finance Institutions (NBFC – MFIs). As a share of total assets in NBFC market, the Investment Credit Companies (ICC) have maintained the dominant share of total assets as have IFCs per the below over a 2019-2020 timeframe:

NBFC Engines of Growth as Growth Drivers

NBFCs have also been an integral cornerstone of key financing to MSMEs, and been driven by significant growth in rural, small scale and unbanked sectors. Structural catalysts include a large vibrant start-up and entrepreneurial ecosystem which has created NBFC demand and government policy initiatives such as Pradhan Mantri Yojana and National Rural Financial plan further augmenting the industry. These include diversified financial needs of Indian economy driven by growth in lending, credit, and vehicle financing. As a result of these growth drivers, we see that NBFCs have seen bigger balance sheets & increasing public funds. Improved profitability ratios of NBFCs has been observed for NBFC-ND-SIs across metrics for ROA, ROE and NIMs with impressive returns Y-o-Y returns between 2019-2020. For NBFC-Ds the ROA has been relatively flat, ROE has declined while NIMs improved Y-o-Y for 2019-2020.

Challenges in NBFC sector:

- Business is highly regulated, and it may be adversely affected by future regulatory changes.
- Financial performance is vulnerable to interest rate risk, as most of the funding is from banking channels.
- Greater competition from NBFCs/banks/fintech could impact growth in AUM and profits.

The Road Ahead

NBFC segments provides huge growth opportunities particularly after the development of last few years. We have witnessed reasonable degree of consolidation in the NBFC sector. Liability side stress in the sector has largely reduced in last couple of years led by focussed efforts from the regulators side. With the passing of the second COVID wave, the outlook is brightening. During the year under review, the balance sheet of NBFCs expanded at a faster rate than a year ago, driven essentially by growth in credit and investments of NBFCs-ND-SI.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is portable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably, The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Consolidated Statement of Profit and Loss during the reporting period in which they are incurred.

Derecognition

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event. It is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

When some or all of the economic benefits required to settle provision are expected to be recovered from a third party, a receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

In case of litigations, provision is recognised once it has been established that the company has a present obligation based on Information available up to the date on which the Company's consolidated financial statements are finalised and may in the some cases entail seeking expert advice the determination on whether there is a present obligation.

The Company's business model is not assessed on an instrument-by instrument basis, but at a higher level of aggregated portfolios.

2.10 The Solely Payments of Principal and Interest (SPPI) test

As a second step of its classification process the Company assesses the contractual terms of consolidated financial assets to identify whether they meet the SPPI test.

"Principal" for the purpose of this test is defined as the fair value of the consolidated financial asset at initial recognition and may change over the life of the consolidated financial asset (for example, if there is repayment of principal or amortisation of the (premium/ discount).

In assessing whether the contractual cash flows are SPPI, The Company considers the contractual terms of the instrument. This includes assessing whether the consolidated financial assets contain a contractual term that could change the timing or amount of contractual Cash flows such that it would not meet this condition.

The Company classifies its consolidated financial liabilities amortised costs unless it has designated liabilities at fair value through the profit and loss account or required to measure liabilities at fair value through profit or loss such as derivative liabilities.

2.11 Recognition of consolidated financial instruments:

Consolidated financial assets and consolidated financial liabilities are recognised when entity becomes party to the contractual provisions of the instruments.

Transaction costs directly attributable to the acquisition of consolidated financial assets or consolidated financial liabilities at fair value through profit or loss are recognised immediately in the Consolidated Statement of Profit and Loss.

Subsequent Measurement:**Consolidated financial Assets**

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS, AS RESTATED

2.14 Effective interest Rate (EIR) Method:

EIR is a method of calculating the amortised cost at allocating interest income or expenses over the relevant period.

The EIR for consolidated financial assets or consolidated financial liability is computed

- a) At the rate that exactly counts estimated future cash receipts or payment through the expected life of the consolidated financial asset or consolidated financial liability to the gross carrying amount of a consolidated financial asset or to the amortised cost of a consolidated financial liability on initial recognition.
- b) By considering contractual terms of the consolidated financial Instrument in estimating the cash flows.
- c) Including all fees received between parties to the contract that are integral part of the effective interest rate, transaction costs and all other premium or discount.

2.15 Derecognise of consolidated financial Assets.

The Company derecognises a consolidated financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the consolidated financial asset and substantially all the risks and rewards of ownership of the asset to another party,

On derecognition of a consolidated financial asset accounted under Ind AS 109 in its entirety

- a) for consolidated financial assets measured at amortised cost the gain or loss in the Consolidated Statement of Profit and Loss.
- b) for consolidated financial assets measured at a value through other comprehensive income the cumulative fair value adjustments previously taken to reserves reclassified to the consolidated statement at Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves may be reclassified within Equity.

If the transferred asset is part of a larger consolidated financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger consolidated financial asset shall be allotted between the part that continues to be recognised and the part that is derecognised, on the basis of the relative fair values of those parts of the date of the transfer.

If the Company neither transfers nor retains substantially all the risks and rewards at ownership and continues to control the transferred asset it recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company transfers substantially all the risks and rewards of ownership of a transferred consolidated financial asset, it continues to recognise the consolidated financial asset and also recognises a liability for the proceeds received.

2.16 consolidated financial Liabilities & Equity Instruments

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS, AS RESTATED

A consolidated financial liability is derecognised when the obligation under the ability discharged or cancelled or expires. When an existing consolidated financial liability is replaced by another from the same lender in substantially different terms; or the terms of an existing liability are substantially modified, such an exchange or modification treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the consolidated financial liability derecognised and the consideration paid and payable is recognised in the Consolidated Statement Profit and Loss.

2.17 Off-setting of consolidated financial instruments

Consolidated financial assets and liabilities are offset and the net amount is reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle one at a time or to realise the asset and settle the liability simultaneously.

2.18 Earnings Per Share (“EPS”)

Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividend, if any, attributable taxes) by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the diluted earnings per share, only potential equity shares that are dilutive and that either reduce the earnings per share or increase a loss per share are included.

2.19 Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with the Ind AS requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities. The accompanying disclosure and the disclosure of contingent liabilities at the end of the reporting period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amount of assets or liabilities in future periods.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements is included in the following notes:

2.20 Impairment of consolidated financial instruments

Equity instruments are not subject to impairment under Ind AS 109.

The Company recognises lifetime expected credit losses (ECL) when there has been a significant increase in credit risk since initial recognition and when the consolidated financial instrument is credit impaired. If the credit risk on the consolidated financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that consolidated financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a consolidated financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a consolidated financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

The financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant IND AS at the end of each reporting period.

The preparation of financial statements require the use of certain significant accounting estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosed amount of contingent liabilities.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS, AS RESTATED

Interest Income from financial assets is recognised by applying the Effective Interest Rate ('EIR') to the gross carrying amount of Financial assets, other than credit- Impaired assets and those classified as measured at Fair Value Through Profit of Loss (FVTPL) OR Fair Value through Other Comprehensive Income (FVTOCI),

Any subsequent changes in the estimation of the future cash flows having impact on EIR are recognised in interest income with the corresponding adjustment to the carrying amount of the assets.

Other interest income is recognised on a time proportionate basis.

2.4 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.4.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities

Current tax is the amount of tax payable on the taxable income for the period as determined in accordance with the applicable tax rates and the provisions of the Income tax Act,1961.

2.4.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone financial statements and the corresponding tax base used in the computation of taxable profit,

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period,

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity),

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or equity: Deferred tax assets and liabilities are offset if such items relate to taxes an income levied by the same governing tax laws and the Company has a legally enforceable right for such set off.

2.5 Property plant and equipment**A. Initial recognition**

Property, plant and equipment are initially recognised at cost together with borrowing cost capitalized for qualifying assets. If any Cost comprises the purchase price and any directly attributable cost of bringing the asset to the location and its working condition for its intended use. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimate

Subsequent to initial recognition property, plant and equipment are measured at cost less accumulated depreciation and accumulated Impairment, if any,

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is portable that the future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably, The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS, AS RESTATED

Derecognition

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the next disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in IND AS 115.

Depreciation

Depreciation commences when the assets are ready for their intended use. It is recognised to write down the cost of the property, plant and equipment to their residual value over their useful lives, using the written down value basis. The estimated use lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event. It is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

When some or all of the economic benefits required to settle provision are expected to be recovered from a third party, a receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

If the transferred asset is part of a larger financial asset and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset shall be allocated between the part that continues to be recognised and the part that is derecognised, on the basis of the relative fair values of those parts at the date of the transfer.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset it recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will not be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs through the FDI Circular 2020 (defined below).

The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as at October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under the FEMA Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non- resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognised as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003.
